VOL. XII, No. 29.

CROSSFIELD, ALBERTA, FRIDAY, AUGUST 22nd, 1919.

PRICE \$2.50 A YEAR.

## WM. LAUT

### ANOTHER VICTORY FOR ROBIN HOOD

This Year, as Usual, the Sweepstakes on Open Bread Making Competition at the Calgary Fair was won by Bread made from Robin Hood Flour.

The Winning Loaf was chosen out of several hundred loaves entered in the competition.

Year after year the result in the Open Bread Making Competition at the large fairs such as Calgary, Edmonton and Vancouver, etc., is the same—Bread made with ROBIN HOOD FLOUR invariably winning First Prize.

To be Assured of Good Results with your Bread and Pastry SPECIFY.

### : Local and General :

Archie Brown, returned to town on Saturday last from Spokane, where he has been resident for some time.

Constable and Mrs. Batts left here on Monday last for their new home in Calgary. Constable Batts having been transferred to that city.

Constable T. H. Pakenham is the newly appointed Provincial Officer for this district. Constable Pakenham hails from Cochrane district.

Quite an improvement is taking place on our streets, the crossings are being torn up and replaced with more substantial ones.

Mr. J. T. Armstrong has not been well of late, and been under the care of Dr. Whillans, on Monday last the doctor considered it would be advisable to take him to Calgary to see a specialist. He was afterwards conveyed to the General Hospital.

UNION CHURCH, CROSSFIELD  
Rev. R. K. Swenerton, B.A., B.D.,  
Pastor.

Mr. A. Knox, Sunday School  
Superintendent.

Sunday School & Bible Class 2 p.m.  
Preaching Service at 7:30 p.m.

On Sunday, Aug. 24th, the Rev. R. M. Bell, of Calgary, Provincial Secretary of the Men's Christian Federation Movement of Canada, will be the preacher at Rodney 11 a.m., Elba 3 p.m. and Crossfield 7:30 p.m. All are welcome.

Mrs. R. L. Boyle is on a visit to town this week.

R. Whitfield took in the Alberta Industrial Congress last week, also paid a brief visit to the coast, that accounts for their being no Chronicle last week.

A committee has been talking Chautauque during the past few days and a committee are busy getting the necessary guarantee.

The Women's Guild met at the home of Mrs. McFarlane on August 7th, Mrs. McLeod, president, being absent Mrs. Wolodje presided over the meeting. It was decided at this meeting to pay \$75 towards assessment of church. It was discussed and the opinion expressed that it would be more desirable to have pews in church instead of the chairs they have at present. The Guild would like to have the opinion of the Vestry and members of Church on this subject. Next meeting of Guild at the home of Mrs. Fox on Sept. 4th. Florence Willis, Secy., pro. tem.

#### Card of Thanks

Mr. Clarence Marston and Miss Ada Whitfield both join in thanking the many kind friends for the respect shown them, also for the many beautiful floral tributes sent during their recent sudden and sad bereavement. C. Marston.  
Miss Whitfield.

FOR SALE.—A Lighter Day Oven, 1 Heater, Small Washstand and Dressing Table, and Chamber Ware. Apply Mrs. J. T. Armstrong, Crossfield.

## Naval Pageant In Old London

Symbolizing Role of British Sea Services in War Were Five Miles of Craft

London. — The important role played by the British sea service during the great war was commemorated by a naval pageant on the Thames, the day marking the fifth anniversary of the British fleet. Plans for the event, while giving recognition to the allied and associated powers laid stress on the fact that this was a purely British occasion and the Union Jack and the banners of St. George, St. Patrick, St. Andrew and St. David predominated in decorations along the riverbank. Tower Bridge was the point selected for the start of the five-mile procession.

On account of the fact that the space beneath the Thames bridges is somewhat limited it was impossible to include the large vessels in the pageant, but the procession lost nothing of interest on account of this. King George's royal barge was in service. It was built more than 200 years ago for Queen Mary and King William and was richly ornamented with crimson and gold.

In planning the celebration, efforts were made to symbolize the development of Great Britain's naval power and typify the connection between the navy and the mercantile marine. The procession, which was marshalled at the Tower Bridge at 4 p.m., spread out five miles and when the head of the line reached Chelsea, and as it turned with the tide the tail of the procession was just leaving the starting point. As it moved along the Thames the huge bank holiday crowds which lined the embankments swarmed on the bridges and perched upon railings and roofs of houses and in trees on both sides of the river gave the pageant a tumultuous greeting.

The progress of King George in the royal barge was marked by particular attention. His journey up the river was greeted with progressive roars of cheers on both banks, the noise culminating in an explosion of applause as the barge shot into the Cadogan pier at Chelsea, opposite Battersea Park, where the King disembarked and was received by the admiralty and civic officials.

After King George landed he took the salute of the passing boats, while standing under a gorgeous royal banner prepared by the League of Arts. The bridges, the embankments, and the houses along the stream were ablaze with festal colors. Even the wharves were lavishly decorated, pilots being painted variously orange, green, red, white, and blue, making a vivid contrast with the muddy waters of the river. Numerous bands along the shore made music as the procession passed, inter-

spiring the national airs with such wartime favorites as "Tipperary" and "The Long, Long Trail," while choruses stationed here and there sang rollicking sea chants.

The procession was a brilliant one as a whole, being commented upon by many witnesses of this and other similar celebrations as probably surpassing in beauty and variety of effects any marine pageant of modern times.

### History of Prohibition.

Chicago. — The history of the prohibition movement in the United States will be reviewed at the fiftieth anniversary of the founding of the Prohibition Party, to be observed here September 1 and 2. This will take place at a banquet on the first, and the next evening a big mass meeting will be addressed by leaders of the party.

Warts are disfigurements that disappear when treated with Hallway's Corn Cure.

Dr. Harvey W. Wiley, a recognized head on proper food diet, says the use of white flour instead of the war mixture is a step backward so far as the public health is concerned.

### Catarhal Disease Cannot Be Cured

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure Catarhal Disease, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the System. Catarhal Disease is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed for ever. Many cases of Deafness are caused by Catarrh, which is an inflammation of the mucous membrane of the Eustachian Tube. It cannot be cured by HALL'S CATARRH MEDICINE. P. J. Cheney & Co., Chicago, Ill.

### Rolling Stock in Canada.

The locomotives on Canadian railways in 1918 were 5,756 in number; cars in passenger service, 6,376; cars in freight service, 209,243; cars in companies' service, 18,890, as shown in statistics compiled by the Department of Railways and Canals.

If Miller's Worm Powders needed the support of testimonials they would not have to be got by the thousands from mothers who know the great virtue of this excellent medicine. But the testimonials are so plentiful that they are in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

### Under Bolshevik Regime.

Omsk. — Petrograd's population which was more than 2,000,000 in 1912, has decreased under Bolshevik rule to 800,000, according to documents and newspapers taken from Bolshevik prisoners here. Moscow's population was shown to have diminished by 40 per cent.

## June Revenue

Ottawa. — During June war taxes collected by the department of inland revenue totalled \$1,878,025. The total revenue of the department from all sources for the month was \$4,586,088, a large increase over the month of June, 1918, when the revenue amounted to \$2,993,630. The largest source of revenue for the month was tobacco, the excise taxes on which brought \$2,425,650 to the treasury.

## With the Fingers! Says Corns Lift Out Without Any Pain

Soft corns, hard corns, corns shortly be lifted right out with the fingers if you will apply directly upon the corn a few drops of Iroquois, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of Iroquois at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This new drug is an ether compound, and while sticky, dried, the moment it is applied and does not inflame or even irritate the surrounding skin.

This announcement will interest many women here, for it is said that the present highest footgear is putting corns on practically every woman's feet.

### A Quorum.

Peck: "But my dear, I thought we had planned to go to the theatre this evening?"

Mrs. Peck: "Yes, I know, but I have changed our mind."

### Minard's Liniment Cures Colds, Etc.

No, Cordelia, a good cook isn't necessarily one that attends church seven times a week.

The smallest of men is the stingy man.

## THE CAUSE OF SICKNESS

### Almost Always Due to Weak, Impoverished Blood.

Apart from accident or illness due to infection, almost all ill-health arises from one or two reasons. The great mistake that people make is in not realizing that both of these have the same cause at the root of them, namely poor and improper blood. Either bloodlessness or some trouble of the nerves will be found to be the reason for almost every ailment. If you are pale, suffer from headaches or breathlessness, with palpitation of the heart, poor appetite and weak digestion, the cause is almost always bloodlessness. If you have nervous headaches, neuralgia, sciatica and other nerve pains, the cause is run down nerves. But run down nerves are also a result of poor blood, so that the two chief causes of ill-health are at the same time.

This accounts for the great number of people, once in indifferent health, pale, nervous and listless, who have been made well and hearty by Dr. Williams' Pink Pills; for no other medicine ever discovered is so valuable for increasing the supply of rich red blood and giving strength to worn out nerves. Men and women alike greatly benefit from a course of the splendid blood builder and nerve tonic.

"Your dealer does not keep these pills you can get them by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### Caught At Last.

A father said to his pretty daughter one morning: "What time did you send that young Simpson home last night?" "Oh," replied the girl, "I don't think it was very late."

"Why, father?"

"It must have been close to midnight!"

"Didn't you send him out the back door and hurry off to bed when you heard me coming in?"

"Oh, I must have been in bed for hours when you came in."

"You heard me, then?"

"Yes, You woke me up."

"And you had been in bed for hours?"

"Uh huh!"

"That certainly is funny!"

"Why?"

"Because when I went to light the lamp I nearly burned my hands off on the hot chimney."

## Coming Flight From Britain To Australia

Official Rules for Prize Offered by the Australian Government.

London, England. — The Royal Aero Club has issued the official rules for the £10,000 prize offered by the Australian Government for a flight from Great Britain to Australia. The flight must be accomplished in an aeroplane or seaplane in 720 consecutive hours, and must have been completed by midnight on December 31, 1920. The complete aircraft and all its component parts must have been entirely constructed within the British Empire, and the start must be made from either Hounslow Aerodrome or Calshot seaplane station. The rules differ from those forecasted in the decision that there shall be only one control, at Singapore, where all competing craft must alight for purposes of identification. The following entry for the prize has been received: Bert Hinckler, Sopwith Dove biplane, 80 horsepower Le Rhone engine.

### Record Price for Farm Land.

A record price of \$150 an acre for a quarter-section of farming land in Alberta was paid by a settler from Wyoming for a farm near Coldlake in the A. R. and I. block of irrigated lands, says a report from the Winnipeg office of the Department of Immigration and Colonization.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the tremendous benefit it has wrought among women everywhere.

On the day a man discovers that he is a fool he begins to acquire wisdom.

### Minard's Liniment Cures Diphtheria.

## Far East As Field For Canadian Trade

Offers Many Opportunities, Not In Any Particular Thing, But Generally.

Vancouver, B.C. — China and Japan present a big field for Canadian trade, declared Sir Edmund Walker, president of the Canadian Bank of Commerce, on his arrival here, after an extended tour in the Orient in company with Mr. Logan, San Francisco, chief of the foreign exchange department of the bank, and Mr. Holt, Vancouver, manager. During the tour, they made an exhaustive study of the commercial conditions and prospects.

"The whole East offers very many opportunities for Canadian trade; not in any one particular thing, but generally," said Sir Edmund. "There is one important point that I must emphasize, however, and that is that there is no trade to be obtained without a systematic campaign being instituted to capture it. It needs a fight to capture the citadel of the East, but it is well worth taking."

More men are ruined by prosperity than by adversity.

All springs look alike to the boarding-house chicken.

### Manslaughter In Second Degree

Cutting corners with a razor is dangerous and useless. The only remedy is Putnam's Corn Extractor, which removes corns and warts in one day. Because painless and safe, use only Putnam's, 25c. per bottle at all dealers.

### France Holds Feast of Gratitude.

Paris. — A "feast of national gratitude" was held throughout France in the reconstructed provinces of Alsace and Lorraine.

In the presence of great crowds, messages from President Poincaré, Premier Clemenceau and Marshal Foch were read. The exercises were of a religious character. In numerous cities school children visited the cemeteries to place wreaths on the graves of the soldiers of France and her allies who had lost their lives in the war, and everywhere homage was paid to the men who had fought to save the nation.

## Clear Your Scalp and Skin With Cuticura

"After shaving and before bathing touch dandruff or irritation, if any, with Cuticura Ointment. Wash with Cuticura Soap and hot water, using plenty of Soap lather applied with the hands. One Soap for all uses, shaving, shampooing, bathing. Finally don't shaven parts with Cuticura Talcum. The Soap, Ointment and Talcum sold everywhere."

## Callings Followed By Returned Soldiers

Agriculture Makes a Net Gain of 15,553 Men.

Ottawa. — Up to the present 273,444 members of the Canadian army have completed the demobilization questionnaires which were issued by the Department of Soldiers Civil Rehabilitation. Of this number \$774 expressed their wish to engage in stock-raising or agriculture. Of these, 20,269 are leaving other occupations to take up agriculture. As 4716 men recently engaged in farming, have expressed the desire to take up other lines of activity, agriculture makes a net gain of 15,553 men. Accessions to professional and general occupations number 20,409, there being, on the other hand, 12,708 men who desire to leave these occupations. It is interesting to note that one out of every five soldiers is anxious to change his method of earning his living on getting out of khaki.

## Cures Catarrh, Bronchitis, Without Any Drugs

If you suffer from a cold, sneezing or catarrh—don't use a snuff—use a sensible treatment like Catarrhazone. It heals and soothes, brings relief at once, cures thoroughly. In bronchitis and throat trouble no doctor can do better than prescribe Catarrhazone. Try it—see what wonders it works—what power it possesses. Different from the old way—you inhale Catarrhazone. Get the dollar outfit which includes the inhaler and is guaranteed. Smaller size 50c, simple size, 25c, at all dealers.

### A Blank—As Usual.

Teacher: "Now, children, I want you to make a drawing of what you would like to be when you are grown up."

Little Girl: "Please, I want to be married, but I don't know how to draw it."

**Local and General**

Duck shooting opens on Sept. 1st. Some of our local sportsmen are getting in their supply of ammunition.

Mr. S. J. Hunter, who recently returned from overseas with his wife is back in the local Bank of Commerce. Mr. Hazard has gone on a visit to his mother in the Peace River district.

Notice.—On and after the 1st of August it is our intention to carry on our business in a strictly Cash basis. Our customers will oblige by bearing this in mind.

Thus and Cuming.

Mr. Moore the Provincial Candidate recently nominated by the United Farmers' of the Cochrane Riding, was the guest of the Sunshine Local U.F.A. on Monday evening week. He addressed a large gathering of the people of that district. An enthusiastic reception and social time followed, ice cream being served by the men and cakes by the ladies, and a good old fashioned time was thoroughly enjoyed by all. An impromptu dance putting on the finishing touch, to the great delight of the young people.

Mr. Moore has been invited to meet the people of the Beaver Dam district in the schoolhouse at an early date.

**CROP REPORT**

The condition of grain, fodder and root crop in Alberta is very distinctly improved at the present time on account of a month of favourable weather over practically the entire province.

In the Peace River country the crops are generally quite heavy and the cutting period is beginning in the case of barley and early wheat and will be well advanced with respect to these two grains by the 25th of August. Root crops are excellent, cattle and horses are looking well and there are great increases in cattle stock due to the offerings from the south.

In Central Alberta extending right to the eastern boundary, which is very dry earlier in the season, crops of all kinds are conceded to be at present quite beyond expectations of a month ago. Briefly the situation in Central Alberta is this. Early grain crops are not heavy, this applies particularly to wheat. Early oats are not heavy but where not too early they have shown greater recuperation than was expected and barley is a good crop in most places and the late cut crop is going to be quite heavy. Root crops are excellent. Pastures are improved very greatly. Tame hay is a light crop but the rains are going to do more than simply improve the pastures. There will be considerable late hay cut as a result of rains during the past three or four weeks. Cutting of all kinds of crop is general in Central Alberta.

In Southern Alberta there is not much new to report with respect to grain crops. There will be some feed on fields that have failed and the pastures are freshening. Flax is now doing well but is not sufficiently advanced for this time of year. The potato crop is considerably improved. Most of the south country has received about four inches of rain within the past three or four weeks. The soil is now in condition for cultivation in preparation for next year.

The chief value of the rain at the present time is to relieve the anxiety among people who have cattle that are being put on the market to reduce stocks. Good steckers on the Calgary market have risen six and a half to eight cents over the past fortnight and the demand is satisfactory at this price. It has been generally recognized that the surplus of hay in Central and Northern Alberta is not as great as it was a year ago. On the other hand the selling services at the central markets are particularly active and the demand for stocker she stuff by farmers in Central and Northern Alberta is very keen. The absorption of this stock is going to be a much greater factor in the relieving of the stock shortage in the south than the movement of stock north was last year. At the present time owners of surplus beef bred heifers in the south are able to do good business.

There has been no great damage by hail. The only heavy hail reported in the province since last report was in the Edmonton district. A stretch of hail varying from two to five miles wide ran from Volmer Station eastward for a distance of about ten miles. Small patches have been visited by hail in the Peace River country and Spruce Grove.

**Electric Starting and Lighting**

No car has a better starting and lighting system than that now available to purchasers of Ford Cars. It is a Ford product, built into the motor—

—a positive starter as reliable as the motor itself.

—a powerful lighting system, uniform under all engine speeds.

On the open models—Touring Cars and Runabouts—it is OPTIONAL EQUIPMENT.

On closed cars—Sedans and Coupes—it is STANDARD EQUIPMENT.

On all models the Ford Standard Magneto also provides ignition independent of the batteries.

See the Ford car with this new equipment.

Ford Runabout fitted Touring Body  
On open models the Electric Starting and Lighting Equipment is \$100 extra.  
Coupes, Sedans, Ford's closed model prices, (not include Electric Starting and Lighting Equipment).  
These prices are F.O.B. Ford, Ont. and do not include the War Tax.

Leslie Farr, Dealer, Airdrie.

# Rumania Must Observe Terms Of Armistice

Paris. — Nicholas Miu, of the Rumanian peace delegation, was summoned before the supreme council which gave him a communication for his government saying that the Rumanian ultimatum to Hungary cannot be recognized by the peace conference and calling upon the Rumanians to live up to the armistice terms.

Miu said that the Rumanians were taking back supplies which German Field Marshal Von Mackensen took from them, but this explanation did not alter the decision of the supreme council, which was unanimous.

While the French hitherto apparently were inclined to regard Rumanian occupation of Budapest favorably, it was evident at the last council meeting that they have changed their position since the Rumanian ultimatum and are now heartily in accord with the British and United States position which they have been supporting consistently.

It was made clear at the meeting that the Rumanian ambitions would cut off the communications of Central Europe and make it impossible to control the situation.

The text of the Rumanian ultimatum reads as follows:

"The Rumanian supreme command makes the following conditions upon which it will accept the cessation of hostilities requested by the Hungarian government:

"The Rumanian supreme command will give up the occupation of all Hungary if the Hungarian supreme command agrees to deliver all material of war of every kind which remains in possession of the Hungarian troops and state.

"Equipment of all kinds needed for an army of 300,000 men must be handed over along with the following: 50 per cent. of all the rolling stock which still belongs to Hungary, according to the records of the Hungarian state; 50 per cent. of all the material which exists in Hungary and is used for the construction and repairs of rolling stock; 200 touring cars; 400 motor trucks in good condition; 30 per cent. of all livestock animals of all kinds which exist at present, according to the records in Hungary."

## Rioting At Liverpool

**Soldiers Charged Mob With Bayonets and Distant Shots Are Heard.**

Liverpool. — Troops at midnight charged with bayonets and dispersed a crowd of persons outside St. George's Hall. Several of the soldiers were beaten with axes handled by the mob. At the same time, firing was heard in the Scotland road district. Details of the trouble there have not yet been received.

The clash outside of St. George's hall resulted from an attack on a sentry by cowards who endeavored to take away the sentry's rifle. The sentry fired his gun in the air and a squad of troops responded and charged the disturbers.

## Many U.S. Shopmen On Strike

**Movement in the Unauthorized Walk-out From Railways Still Spreading.**

Chicago. — Leaders of the Chicago district council of the Federated Railway Shopmen's union said that 725,000 was a conservative estimate of the number of shopmen on strike throughout the country and that the movement was still spreading. They declared violence would not be countenanced by the organization and so far as they knew no mail trains had been interfered with.

## Resign From Police Union.

London. — The loyal police of Birkenhead, across the Mersey from Liverpool, have unanimously resigned membership in the police union as a protest against the latter's action in calling a strike. The men comprise about half the Birkenhead police force.

This is the first instance of loyal police in any of the strike areas openly repudiating the union.

## U. S. Lecturers Are Classed As Intruders

**British People Would Settle Their Affairs Themselves.**

London. — Answering a question in the house of commons as to whether the government considered interfering with the U.S. citizens here for a prohibition campaign that "the British electors prefer to settle their domestic questions for themselves," Edward Shortt, secretary of home affairs, said:

"I am disposed to agree with the suggestion that the British people can settle this matter for themselves, but, as I have stated, I do not think this step by the government necessary."

The first part of the home secretary's answer was cheered.

## Exemption Cases

**New Judgment Has Important Bearing on Legality of Orders-in-Council.**

Montreal. — A judgment which may have an important bearing upon all exemption cases under the Military Service act, in that it questions the legality of an order-in-council cancelling exemptions which have been duly and legally granted under the letter of the act, was handed down by Judge Lett in the case of Lafard vs. Senecal.

It is indicated in the judgment that it may be necessary to rehear most of the cases. The judgment says that no order-in-council could abrogate penalties imposed under the Military Service act and likewise should not be allowed to cancel exemptions granted.

## Britain's Thanks

**Formal Reception Given Military Leaders and Others for War Services.**

London.—Marshall Foch of France, the allied chief in command, and various military and auxiliary services of Great Britain that served in the war, were given a formal vote of thanks by the house of commons. The vote included mention of the British women's organizations.

The formal thanks of the government is part of the recognition given for war services. King George made known his recommendation for titles and large money grants to a number of the commanding officers of the land, air and sea forces.

## Japan Respects Chinese Sovereignty.

Tokio. — Viscount Uchida, the Japanese foreign minister, is a statement, declares that Japan does not intend to claim any rights affecting the territorial sovereignty of China in Shantung. He promises that the Japanese troops will be withdrawn immediately an arrangement is concluded with China. Japan, moreover, the foreign minister's statement adds, is considering the establishment of a Tsin-Tao of a general foreign settlement instead of a purely Japanese settlement.

## Training Canadian Wives.

London. — British wives of Canadian soldiers going out to settle in the Dominion now number 30,000. The movement initiated by the Khaki college to give special training to these for Canadian life has been remarkably successful.

## Ferdinand Offered Doubtful Honor.

Berlin. — According to a Vienna despatch to the Zwölf Uhr Blatt, the counter-revolutionary Hungarian government has offered the Rumanian throne to King Ferdinand, of Rumania.

## Invite Foch to U. S.

Paris.—Marshall Foch, commander-in-chief of the allied armies during the war, is reported by the Echo de Paris to have been invited by the United States government, as well as several organizations in that country, to visit America.

## Police Favored Strikers

**Sensational Testimony Added To Evidence In Case of Seditious Conspiracy.**

Winnipeg. — Direct evidence that the city police stood by and watched the strikers, on the first day of the strike, while they deliberately maltreated citizens on their way to work, trespassed and destroyed property, was given at the trial of the eight strikers leaders by A. A. Riley, of the Canada Bread company. Denial that the citizens' committee of one thousand was a "capitalistic concern" and that it was formed for any other purpose than endeavoring to continue the operation of public utilities during the strike was also tendered by Edward Parnell, of the Speirs-Parnell Baking company, at the morning session. Sandy Cuthbert, of the city street commissioners' department, also told of threats that had been made if he did not quit work. He stated that one of the strikers, an Austrian, and a former employee of this department, had threatened to kill him.

R. B. Graham, crown prosecutor, was the first witness called at the afternoon sittings of the court. He stated that the police were permitted to remain on duty by the strike committee but could have been called out at a moment's notice and that at the outbreak of the trouble in Winnipeg they were not subservient to the orders of them, but rather the strikers.

A. A. Riley, manager of the Canada Bread company, gave evidence that he had no notice of the strike until about 2.30 p.m. the first day of the strike. That evening, said the witness, an organized gang, two truckloads of "strong-arm men," came down town and ordered the leadership of a man named Winters, whom witness believed was organizer for the carpenters. These men forcibly entered the building, shut off the machinery and prevented the men from working.

"In response to a call by telephone for aid, a police officer came," said witness, "and as we entered the building Winters came out. Speaking to the officer he said: 'We've cleared the last. Get 'em out.' The policeman replied: 'That's fine.' Turning to the policeman, I said: 'This is pretty tough luck; they've done some damage,' and he replied: 'I know, but the people are not going to stand for your business to be carried on like this you know.'"

## Europe May Never Recover.

"These four years of mad destruction may have struck a blow at Europe's prosperity from which it will never recover. Some of the greatest of the Dominion statesmen have expressed their conviction that the result will be a permanent change. They foresee a great and increasing depression from Great Britain, and indeed, from all the war-torn countries, of people fleeing from national bankruptcy in a region haunted by civil devils. From such a migration they anticipate the building-up of huge communities in still unsettled lands, which will give a new orientation to the world's future history. Canada, South Africa, Australia will take the place in this war which was taken by the West after the Civil War in America."

## Cannot Come In A Day.

A new order must come, but no old order dies in a day. The vast stretch of war is still in Europe's mind. The outcroppings of imperialism, grab and conquest at Versailles are ebullitions that must subside. Europe must accept the spirit of the League of Nations in sincerity and good faith or perish. That is the great thing. The wording is secondary.—Saturday Evening Post.

## Report Bolshevik Success.

Stockholm. — The Social Democrats reports that Archangel is in the hands of the Bolsheviks, who, it says, have succeeded in cutting the connection between the Murmansk and Archangel coasts.

## Entrance To League.

Santiago, Chile. — The Chilean senate unanimously approved the entrance of Chile into the league of nations.

W. N. O. 1276

# U.S. Takes Action To Stop Profiteering

## Strong Tariff Resolution

**Text of Resolutions Submitted to the National Liberal Convention.**

Ottawa. — The full text of the tariff resolutions submitted to the national Liberal convention was as follows:

"That the most interests of Canada demand that substantial reductions of the burdens of customs taxation be made with a view to the accomplishing of two purposes of the highest importance: First, diminishing the very high cost of living which presses so severely on the masses of the people; second, reducing the cost of the instruments of production in the industries based on the natural resources of the Dominion, the vigorous development of which is essential to the progress of our country.

"That to these ends, wheat, wheat flour, and all products of wheat, the principal articles of food, farm implements and machinery, farm tractors, mining, flour and sawmill machinery and repair parts thereof; rough and dressed lumber, gasoline, illuminating, lubricating and fuel oils, etc., net twines, and fishermen's equipments; cements and fertilizers, should be free from custom duties, as well as the raw material entering into the same."

"That a revision downwards of the tariff should be made whereby substantial reductions should be effected in the duties of wearing apparel, and footwear and on other articles of general consumption (other than luxuries) as well as on the raw material entering into the manufacture of the same.

"That the British preference be increased to 50 per cent. of the general tariff, and the Liberal party hereby pledges itself to implement by legislation the provision of this revision when returned to power."

## Troops Refused To Obey Orders

**Mutiny Caused Polish General To Resign Command.**

Berlin. — A despatch to the Vorwarts from Bromberg, province of Posen, says it has been learned that the real reason for the resignation of General Musnik, commander of the Polish troops in Posen, was that there had been sanguinary mutinies of Polish troops in Posen, Gnesen and Warthe, and also at the front. Entire companies and even battalions, the despatch says, refused to obey orders and maltreated their officers. In the Warthe camp, officers, who endeavored to have resort to arms, were shot dead or were badly wounded.

The reason for the disturbances is given as growing discontent on the part of the soldiers at the Russian system, which Musnik introduced.

## French Food Plan Is Success.

Paris. — The plan recently adopted by the French food ministry to reduce food prices is working successfully in some of the French cities. At Havre eggs have been reduced from \$1.20 per dozen to 60 cents, onions from ten to five cents per pound, and potatoes from four to two cents per pound. The reductions in some foodstuffs vary from 20 to 50 per cent.

## To Sell Airplane.

London. — The Central News says it learns that the minister of munitions has contracted for the sale of 100 aircraft engines and a great number of airplanes for Canada and the United States.

## Aviator Drowned.

Winnipeg. — Thomas H. Billman, flight lieutenant, R.A.F., who recently returned from overseas, was drowned while swimming near Myrtle, Man. He is a son of Col. T. H. Billman, of this city.

## Ira Stratton Resigns.

Winnipeg. — Ira Stratton, president of the Manitoba Civil Service association, has resigned.

Washington. — Anti-trust suits against the great meat packing firms were announced by Attorney-General Palmer as the first concrete development of the government's campaign to reduce the high cost of living.

Armour, Swift, Morris, Wilson and Cudahy, who have been pictured in the investigations of the federal trade commission and before congressional committees at a great commission in control of food products, are to be hauled again before the federal courts by special prosecutors. The evidence in hand, Attorney-General Palmer declared, indicated "a clear violation of the anti-trust laws."

While he was announcing prosecutions of the packers, Attorney-General Palmer was unleashing his special agents on a country-wide trial of profiteering and food hoarding. These prosecutions come under the food control law.

All United States attorneys were instructed to ferret out food hoarders, and label them under federal law.

Another major development of the day was the making public of the federal trade commission's report on the shoe industry investigation. This report charges that the high price of shoes is due to excessive profit-taking from every dealer in the trade. Packers, farmers, manufacturers and retailers all shared in the blame. The report was placed before Attorney-General Palmer.

## The Order Of Merit

**Lloyd George Receives Token of Appreciation From The King.**

London. — King George has conferred upon Premier David Lloyd George the Order of Merit as a sign of his appreciation of Lloyd George's war services. In a letter to the premier, dated Buckingham Palace, August 5, announcing the award, the King says:

"My Dear Prime Minister: Honors and rewards to officials of the army, navy and air forces having been submitted to parliament, I feel that my people will share with me regret that it is not possible to express the nation's grateful recognition of the persistent services rendered by the prime minister, both in carrying the war to a victorious end, and in securing an honorable peace. To rectify somewhat this omission, and, personally, to mark my high esteem, it gives me great pleasure to confer upon you the Order of Merit. Believe me,

"Yours very sincerely, (Signed) "GEORGE, R.I."

## Prince Will Visit Quebec.

Quebec. — His Royal Highness, the Prince of Wales, will stay four days in Quebec City after he lands here on Thursday, Aug. 21, about five o'clock in the afternoon. He will proceed directly to his specially reserved quarters at the citadel, where he will be received by the official representatives. The following day the official reception will be held at the parliament buildings, where addresses of welcome will be presented by Sir Lomer Gouin and Mayor Lavigne. The prince will remain in Quebec until Sunday the 24th inst.

## Queen Victoria Statue.

Victoria, B. C. — The Prince of Wales is to be invited to lay the corner stone in connection with the mounting of the statue of Queen Victoria in Parliament Square, The Harrison line. Historian is bringing the statue to this city. The monument is of bronze and will be mounted on Swedish granite. It was carved in England before the war, but shipment was prevented by the breaking out of hostilities.

## Kaiser's Trial In London.

London. — The allies have not altered their decision to hold the trial of the former German emperor in London, Andrew Bonar Law, government leader, announced in the house. He said no action in the matter could be taken until the German peace treaty was ratified.

## The Crop Situation

Fair Expectations in Alberta and Saskatchewan and Good Crops in Manitoba.

The official report of the Department of Agriculture of Alberta on crop conditions in this province at July 15th shows excellent crops in the north, fair to good in Central Alberta, and poor to failure in the south. There is no doubt the conditions in the south have become more and more unfavorable during the last four weeks. Except on the irrigated lands, where a heavy crop of alfalfa has just been harvested and at least another one equally good is in prospect before the end of the season, and where the fields of grain and other crops promise excellent yields, the crops in Southern Alberta are more or less a failure this season. In some districts there was a chance of recovery if rain came very soon, and probably the rainfall during the last ten days has improved matters in many districts. That remains to be seen.

In regard to the situation in the South, the official report says: "There was sufficient moisture from snow and spring rains to germinate the grain and the crops came up satisfactorily. There was not sufficient moisture below to constitute a reservoir for the steady supply of moisture to crops for subsequent growth and there has not been sufficient rain since." But these conditions which have been bad for dry farming, have been good for irrigation farming. The long days of warm sunshine and the judicious use of water from the irrigation ditches, the fertile soil are combining to produce big crops on the irrigated farms.

In Saskatchewan conditions on June 15th were more favorable than they were two weeks earlier, according to the official report. In the east-central part of the province crops are said to be the best grown for some years. There has been plenty of moisture all along. Conditions in other parts are not so good, and taking the province as a whole the crop will be less than an average one, but greater than many pessimistic reports might lead to believe.

With a continuance of the favorable conditions, Manitoba is going to harvest the most valuable crop ever harvested in that province. The wheat and other grains are rapidly ripening, and it looks as if harvesting will be earlier than usual. The grass is also growing exceedingly well, and there will be an abundance of feed in this province which will help to relieve the shortage in the other provinces.

## Trade With The Enemy

May Be Warfare Again or in Time Becomes Civilized.

The haste of American and Allied traders to re-establish commercial relations with the Teuton, and the anxiety of the Teuton to reciprocate, with the fate of the late Kaiser's head still undecided, may seem gross and ugly to the tender-minded; but if trade is to be resumed at all the manner of its happening is inevitable. Business is quick and competitive.

The important matter is to know whether defeat in war has taught the Germans how to trade on fair and decent terms—how to distinguish, that is to say, between competition and conspiracy, between battle and murder. Their code of war was a perfect sublimation of their business code—Prussian, ruthless and oblivious. She is readmitted to commercial relations with a much wiser world than the one she fooled so long. It has looked that a nation cannot live by one code and trade by another. As people are so they trade.

Trade with Germany may be warfare again, as it was, or it may in time become civilized. That is for her to say.

## Good Apple Crop.

Ottawa. — With the exception of July fruit, crop prospects have improved in Canada, according to the August 1 report of the fruit commissioner's branch department of agriculture.

A bachelor may think he's the whole thing, but a married man remembers he has a better half.

## Going In For Mixed Farming

Saskatchewan More Than a Wheat Growing Province.

The high average yields of wheat and other grains of the best quality over a long series of years, together with the ability of Saskatchewan competitors to carry all before them in the grain classes at the leading international agricultural exhibitions has led to the conclusion that Saskatchewan is solely a grain growing province. As a matter of fact, the revenue from wheat is not so great as that from livestock. In 1917, when conditions were more nearly to the average than in 1918, the returns from wheat growing in the province amounted to \$183,300,000 and for all grain crops to \$295,913,400. From livestock production and livestock products, including exports of butter, eggs and poultry, the total returns were over \$300,000,000.

The general adoption of the province for mixed farming has been much forward by the provincial government's policy of encouraging co-operative marketing. Last year in the marketing of all classes of farm produce, Saskatchewan farmers had a business turnover of \$105,000,000. One of the latest co-operative activities in the province is the marketing of livestock. Although the movement is still new, there were thirty-five co-operative associations marketing their own stock and their total turnover amounted to \$4,160,263.83. A movement is now on foot to amalgamate these shipping associations into one body, and the next step in the evolution will no doubt be the establishment of stockyards and abattoirs in the larger centres.

## The Age Of The Sea

Scientists Figure That Sea Were Born About 90,000,000 Years Ago.

How old is the ocean? Standing on the shore and looking out over the expanse of water, the ocean seems a fixed and eternal fact, but the seas had a beginning and will have an end. Scientists say that when this time comes the last drop of water will have been absorbed into the earth's crust, its surface will be a desert and all life will become extinct.

The age of the oceans has been estimated by a leading authority, Prof. Frank Clarke, of the United States Geological Survey, at about 90,000,000 years. This, of course, is only an approximation, but is based on carefully studied scientific data.

All the water was once contained in the vapor that surrounded the glowing slowly cooling mass which is now the earth. After the gases combined to form water the process of making the ocean salt began. This was the work of the rivers. Mineral salts were extracted from the rocks over which they flow and deposited in the sea.

Each year the action of the streams is said to make the ocean slightly more salty and this is the basis on which its age is calculated. The amount of salt carried by the rivers of the world is computed by the scientists and compared with the total quantity in the ocean. After evaporation and the velocity of currents have been considered it is possible to calculate how long it has taken to make the sea water as salty as it is today.

About three and a half per cent. of mineral salts and ninety and a half per cent. fresh water make up the ocean. Three-fourths of the solid matter is common salt, other ingredients being chloride sulphate and bromide of magnesium; sulphate and carbonate of lime. A sulphate of potash besides traces of various other minerals and metals, including gold and silver.

## Enlightening Him.

Mr. Meek was laboriously looking up the back of his wife's calendar as the clock was striking their dinner-hour and their dinner guests were ringing the door-bell. Mr. Meek breathed hard; his forehead was damp, and his hand shook. "I do wish some one would invent a machine to do this kind of work," he muttered miserably. "Why they have!" replied his wife brightly, as she applied some powder mechanically to her nose. "They have, and you are it!"

## Ministers Issue Writs For Libel

Specifications Concern Comments On Charges Made By Weekly Nation.

London. — Writs have been issued against the London Daily News on behalf of J. Austen Chamberlain, chancellor of the exchequer, Walter Long, first lord of the admiralty, Sir Eric Geddes, minister without portfolio, and Sir Auckland Geddes, minister of national service and reconstruction, for alleged libel. The specifications of the alleged libel concern comments on charges made by the Weekly Nation, that the statesmen possessed shares in various Russian mining and development companies, some of which were purchased since the armistice with the Teutonic allies was concluded, and therefore while Great Britain was hostile to Russia.

## Dry Area And Stock Relief

Area From Which Hay And Haying Outfits May Be Shipped Free Of Charge In Saskatchewan.

Regina. — Announcement of the areas to and from which hay and haying outfits may be shipped at reduced rates as a relief measure for the drought-stricken territory in Saskatchewan was made by F. Hedley Auld, deputy minister of agriculture. The dry territory is separated from the area where feed is plentiful by a line which passes close to the following points: Lloydminster, Turtleford, North Battleford, Mennon, Aberdeen, Elstow, Young, Kenaston, Tugaskie, Boharm, Moreland, Weyburn, Stoughton, Reston, Bellevue, Boisdale, Wapota. All the country west and south of this line is dry, north and east being well supplied with feed.

Under the agreement which has been reached, hay may be shipped from the good territory to the dry and haying outfits shipped out from the dry to the good area and returned free of charge, the federal and provincial governments and the railway companies each contributing one-third of the cost of transportation.

Cattle may be shipped from the dry area to the feeding grounds, the arrangement making provision for the farmer paying full freight for the going trip. The return trip, providing the cattle are kept within the province, is free to the farmer, the government bearing half the cost of transportation. The railways have agreed to furnish a special rate of 75 per cent. of the tariff to governments purchasing and shipping cattle.

## Alberta Crops Much Improved.

Calgary. — Torrential rains which fell in Calgary Friday night and early Saturday morning ended mostly over local territory to the west of the city after the dry north-west drought in this district being broken, as during the month of July just past the total rainfall has been 1.64 inches, as against .95 inch for July last year. Moreover, of the rainfall in July of this year only one inch was recorded in the past week. Districts which a week ago were reporting a total crop failure are now coming to the front with hopeful reports of at least a partial crop.

## The Rebuilding Of Ypres.

Brussels, Belgium. — A commission consisting of Belgian and British architects has been formed to study and report on the reconstruction of Ypres. The town is to be rebuilt on the same site, and the inhabitants will be required to preserve in the rebuilding of their houses the same style which characterized the Ypres city before the war. In accordance with the wish expressed by the British Government, some of the ruins of the old Flemish city will be preserved as monuments of the great stand made by the British army. The ruins of Ypres Town Hall are among those preserved.

## Manitoba Liquor Fines.

Winnipeg. — During the month of July just past, \$5,110 were paid in for selling or keeping liquor, while another \$1,000 went to the inland revenue authorities from those charged with keeping stills. A total of \$45,080 has been paid in fines during the seven months of the year.

## Livestock In Western Canada

Increase in the Provinces of Alberta, Manitoba and Saskatchewan.

The following statement showing the increase in the numbers of livestock in the provinces of Alberta, Manitoba and Saskatchewan during the five year period from 1913 to 1918 are significant of the wide field of farming operations in these provinces towards greater livestock production, and the establishment of a sound and permanent agricultural foundation:

Manitoba:	1913	1918
Horses	304,088	384,772
Milk cows	152,792	225,659
Other cattle	256,926	321,240
Sheep	42,840	136,782
Swine	184,745	284,596

Saskatchewan:	1913	1918
Horses	580,386	990,000
Milk cows	194,843	352,989
Other cattle	468,255	926,342
Sheep	115,568	134,177
Swine	386,794	521,240

Alberta:	1913	1918
Horses	484,809	791,246
Milk cows	168,376	328,702
Other cattle	610,917	1,362,880
Sheep	178,015	332,179
Swine	350,692	601,534

It is evident that Western Canada represents the most favorable area on the North American continent for livestock development. The progress of the industry in the Prairie Provinces is one of the most pleasing and satisfactory features of the agricultural advances of Canada during the past decade. There is no doubt that with the assurance of a continuous and permanent export outlet for the products of livestock, and facilities for disposing of the by-products the industry will continue to expand, and it does not seem too much to expect that the numbers of livestock in these three provinces will be trebled and quadrupled during the next five years. Farmers of Western Canada appreciate now as never before the great opportunity they have to establish and maintain a greater national revenue bearing industry, and to establish agriculture on a permanent basis by keeping a sufficient number of livestock to maintain normal fertility of the soil.

## Imperishable Deeds Of War

King George's Address in Reply to Congratulations of Royal City of Empire.

London. — The King and Queen drove in state to the Guildhall to receive the congratulations of the corporation of London on the conclusion of peace. They were everywhere cheered along the route. The brilliant assembly on the platform at the Guildhall included the premier and other ministers, ambassadors, Admiral Beatty, Field Marshall Wilson, and leading and other distinguished people.

Replying to the address, His Majesty, who wore the uniform of an admiral, contrasted the circumstances of his visit to the Guildhall a year ago, when it was impossible to foretell when victory would come or how much it would cost, with the situation today, Germany's fighting power destroyed and our terms accepted.

His Majesty incidentally expressed the sincere hope that the recent example at St. Paul's of several religious denominations joining for the purpose of expressing the nation's gratitude for peace might prove a step towards close co-operation of religious communities for the spiritual life of the nation.

His Majesty paid a tribute to the imperishable deeds of the forces of the empire and the splendid services of the mercantile marine. The war had emphasized that the restoration of our overseas trade, the recreation of our mercantile marine and the development of our ports must be pursued energetically in order to regain our old supremacy.

## King Albert at White House.

Washington. — King Albert and Queen Elizabeth of Belgium, will be guests at the White House during their visit to Washington, this fall, probably in October. Elaborate plans for their entertainment are being prepared by the state department.

A time table, Elizabeth, is an old table purchased on the installment plan.

## Electricity On The Farm

Farmer Will Use Electric Power to Save Time.

Farm work is not just a matter of taking a team to the fields and putting in so many hours a day plowing, harrowing, seeding, harvesting, or whatever the task might be. There are also the chores and farmers are coming to realize more and more that valuable time can be wasted in doing chores; that is, where folks persist in doing them in the old way. In the field, modern machinery is employed to save time and labor and to make possible short cuts, so that fewer hands can do the work and keep the farm production up to the standard that has been set for it. Why isn't it just as reasonable to employ short cuts about the barn in the chore work as in the regular farm work in the fields?

A great many farmers are coming to decide that it is, and your up-to-date farmer is using modern equipment about the farm buildings just as he is using modern equipment in the field work. One of the most important of the time and labor saving devices being used is electricity. Generally he gets it from one of those small individual plants that can be installed in the tool house or garage or in any other convenient place about the premises.

This electricity is used to light his home, first of all, of course. Then if he and his hands are to work efficiently, he will light his barn, and stable and the surrounding yards. Most of the chores of the seasons are done after dark, by the aid of a lantern. More of them would be done after dark if bright electric light were provided, and that much more time would be left for work in the fields. Then the farmer who uses electricity will use electric power to save steps, save work and save time. He will use electricity to pump the water. He will have this water stored under pressure so that it is forced to the faucets, either at the hutch or barn, and no pumping or carrying is necessary. If there are many cows to milk, he will run the milking machine with an electric motor, and the farm boy who otherwise would be tempted to leave the farm to escape an uncongenial job will be satisfied to stay and supervise so interesting an operation as milking by mechanical means. Then this electric power will be used to turn his grindstone, the corn sheller or grinder, the clippers for clipping milks or horses, for cleaning seed, for a dozen different uses that will suggest themselves wherever electricity is available.

## Aland Islands May Be Neutral

Formerly Held by Sweden But Taken Over by Russia in 1809.

The Aland Islands are an archipelago of eighty inhabited islands and a vast number of rocks and islets. The population is about 12,000. The islands formerly were held by Sweden but were taken over by Russia in 1809.

Early in 1918 when the warfare between the White Guard and Bolshevik forces became active in Finland, it was reported the Germans planned to make use of the Aland Islands in connection with their operations in Finland. Sweden sent troops to occupy the islands.

After the peace conference opened in Paris a delegation from the Aland Islands presented former Premier Orlando of Italy with a claim for annexation to Finland based on historical, linguistic, geographical and commercial grounds.

The Swedish government on June 25, 1919, sent a note to Finland in reply to one from that government and in its note Sweden insisted that the future of the Aland Islands should be settled by a plebiscite and that the Swedish government would be submitted to the peace conference.

## Discounting Our Coinage.

Buffalo, N. Y. — Canadian silver coins were worth less cents than a dollar as a alternative, the claim in Buffalo on Aug. 4. Notices were posted in banks and business houses fixing a discount of one cent on a dime, two cents on a quarter, and four cents on a half dollar.

## Ideal SILVER CREAM

This new polish is a great boon to the housewife. It entirely cleans dirt and tarnish, or stains from gold and silver, yet it will not scratch or mar the finish in any way.

Ideal Silver Polish is unlike any other preparation. Ideal contains no minerals, acids or poisons—it is purely vegetable and perfectly harmless.

Try Ideal at once. Ask your dealer or write us if he can't supply you.

### Effect Of Tariff Changes On Fruit

The Fruit Commission's Branch of the Department of Agriculture has made a statement to the effect that apples are not affected by the recent tariff changes. The only change in fresh fruits is the removal of the war tax. Fresh tomatoes and fresh vegetables are same rates as formerly, with the exception of the removal of the war tax. As to potatoes, when imported from a country which imposes a customs duty on potatoes grown in Canada, the tariff is as follows: British preference 12% cents, intermediate 20 cents, and general tariff 20 cents per bushel.

### The Pathos Of Devastation

France Had Visible Aspect of Having Been Bled White.

France's loss of manpower is one of the obvious things. Six months after the armistice there were women conductors upon the street cars, women working about the railroad yards, women everywhere in the fields.

France had a visible aspect of having been bled white. Men along in the forties could be seen in soldier uniform and everywhere there seemed an actual shortage of human power. It is sad to remember that during the war the population of France, quite aside from all military losses, showed a decrease of 800,000—800,000 more deaths than births.

I traversed the whole distance of the French front. The pathos of that devastated territory is beyond words, the all but homeless people camping in wrecked buildings with windows screened with paper. Patched peasants toiling northward with scanty furnishings for the home they hoped to return to were poignant sights when one had come fresh from the regions toward which they were going and knew that no roof stood in all the land.

**Small, but Potent.**—Farnale's Vegetable Pills are small, but they are effective in action. Their fine qualities as a corrector of stomach troubles are known to thousands and they are in constant demand everywhere by those who know what a safe and simple remedy they are. They need no introduction to those acquainted with them, but to those who may not know them they are presented as the best preparation on the market for disorders of the stomach.

**Would Burn Zeppelins.**  
Coblentz. — Germans in charge of twenty-four Zeppelins near Berlin have threatened to burn them rather than deliver them to the allies as required by the peace treaty, according to information obtained by the American army authorities here, it was learned. The Zeppelins are of 25 tons capacity and can fly from Berlin to San Francisco, according to German sources. Several were built to carry forty persons.

### KEEP CHILDREN WELL DURING HOT WEATHER

Every mother knows how fatal the hot summer months are to small children. Cholera infantum, diarrhoea, dysentery, colic and stomach troubles are rife at all times and often a precious little life is lost after only a few hours illness. The mother who keeps Baby's Own Tablets in the house feels safe. The occasional use of the Tablets prevent stomach and bowel troubles, or if trouble comes suddenly—as it generally does—the Tablets will bring the baby safely through. They are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Hurry Channel Tunnel.**  
Paris. — Measures to expedite the completion of a tunnel under the English channel, connecting France and England, were presented to the cabinet by Albert Clavellie, minister of public works.

#### Minard's Liniment Cures Garget in Cows.

**Telegraph Statistics.**  
The number of long messages handled by telegraph organizations in Canada in the year ended June 30, 1917, was 11,817,517, as compared with 10,835,936 in 1916. Cablegrams numbered 1,084,556, as compared with 1,134,905 in 1916. Employees in the service of telegraph organizations numbered 7,100, of which 3,996 were male and 496 female operators. Other officers and employees numbered 2,608. Salaries and wages amounted to \$3,278,450, as compared with \$2,898,230 in 1916. The aggregate of salaries and wages in 1917 was equal to 77.2 per cent of operating expenses (\$4,243,950), as compared with 68.9 in 1916, as stated in the Canada Year Book.

**Coal Strike Affects Threshing.**  
Regina, Sask. — Hon. C. A. Dunning has telegraphed Hon. G. D. Robertson that the coal strikes in Alberta have caused a serious shortage of coal and that unless steam coal is available quickly, many steam threshing outfits will be idle.

W. N. U. 1276

### Livestock Prices Are Normal

Cattle Purchase By Manitoba Government Is Now Delayed.

Winnipeg. — As the result of information received by Hon. Valentine Winkler, provincial minister of agriculture, purchase of cattle by the government from the farmers of Alberta will be considerably delayed. A wire received from one of the provincial agents at Calgary stated that at the present time the cattle market was normal and that prices were being well maintained. The message continued by saying that the farmers of Alberta were counting considerably on the government hay scheme and that many of them were holding on to their stock in the hope that they would be able to carry them through the winter as a result of the government's assistance.

It is conservatively estimated, however, that seventy-five per cent. of the stock south of the Red Deer river will have to be sold; the telegram adds. It is not expected, however, that the farmers will commence to sell for at least a month.

### LEMONS MAKE SKIN WHITE, SOFT, CLEAR

Make This Beauty Lotion for a Few Cents and See for Yourself

What girl or woman hasn't heard of lemon juice to remove complexion blemishes; to whiten the skin and to bring out the roses, the freshness, the hidden beauty? But lemon juice alone is acid, therefore irritating, and should be mixed with orchard white in this way: Strain through a fine cloth the juice of two fresh lemons into a bottle containing about three ounces of orchard white, then shake well, and you have a whole quarter pint of skin and complexion lotion at a cost of the cost one usually pays for a small jar of ordinary cold cream. Be sure to strain the lemon juice so pulp gets into the bottle, then this lotion will remain pure and fresh for months. When applied daily to the face, neck, arms and hands it should help to bleach, clear, smoothen and beautify the skin.

Any drugist will supply three ounces of orchard white at very little cost and the grocer has the lemons.

**Germany May Release Russians.**  
Paris. — Marshall Foch appeared before the supreme council Saturday afternoon in connection with the discussion of the Russian prisoners. The condition of the Bulgarian army also was taken up. The council decided to inform Germany that all restrictions on the movement of Russian prisoners held in Germany have been lifted. Germany may now release such prisoners. There are between 200,000 and 250,000 Russian prisoners in Germany.

Wise farmers never attempt to raise their crops in the political field.

**For Frost Bites and Chilblains.**  
Chilblains come from undue exposure to slush and cold and frost-bite from the icy winds of winter. In the treatment of either there is no better preparation than Dr. Thomas' Electric Oil, as it counteracts the inflammation and relieves the pain. The action of the oil is instantaneous and its application is extremely simple.

It is easier to make a new quarrel than it is to patch an old one.

So many of us are anxious to do away with vices—in our neighbors.

### Western Canada Coal Fields

British Columbia and Alberta Have Wonderful Natural Resources.

Ferrie, B. C. — The three international board members of the United Mine Workers of America, who are here from across the border in an effort to settle the strike of coal miners in southern British Columbia and Alberta, are tremendously impressed with the great coal resources of this province. The three men are Samuel Ballantyne, of Iowa; Samuel Caddy, of Washington, and William Dalrymple, of Oklahoma. These men are thoroughly familiar with coal fields in every portion of the United States and are students of European conditions in relation to coal production and coal markets.

What has particularly impressed the Americans visiting this field is the fact that in this southeastern corner of British Columbia there are more than 1,000 acres of proved coal lands carrying billions of tons and that the percentage of high grade coals is far in excess of any other bituminous coal field on the American continent, if not in the world.

### Strength Of Canada's Wheat Commends It

Weak Wheats of England Require Mixing With The Strong Wheats of Canada.

The baking strength of Canadian wheat is what commends it the most to the English trade. The weak wheats of England require mixing with the strong wheats of Canada. As long as the Dominion produces wheat that will answer this purpose, just as long will Canada's wheat be popular with the English miller. There is only one way in which Canada could weaken her reputation for the production of wheats of high baking strength, and that is by the individual grower shifting his attention from the recommended and well-known varieties of Canadian wheat to unknown sorts which have not been thoroughly tested and their baking strength established, according to a recent statement by the Dominion Cerealsist, C. E. Saunders, Department of Agriculture.

### PLES

Do not suffer another day with Piles. No surgical operation required. Dr. Charles Clements will relieve you at once and as certainly cure you. See a box at all druggists or write to Dr. Charles Clements, Toronto. Sample box free if you mention this paper and enclose in stamp to pay postage.

### Sad Death of

J. D. Marston

It is with feelings of sadness that we  
have to record the sad death of Jeremiah  
D. Marston, which took place on Wed-  
nesday morning, the 13th ult., at Drum-  
heller. Deceased was working for G. F.  
Stooke, and in company with A. Switzer  
was working near a dam on the farm,  
when from some cause the horses became  
startled throwing deceased on one side  
and made for the water, seeing the horses  
struggling in the water he at once jumped  
in exclaiming, "I'll save the team if I  
have to go down myself," and succeeded in  
turning the horses heading them for the  
shallow end. In doing so it is prob-  
able he may have sustained a kick from  
one of the horses, as he immediately went  
down and was seen alive no more.  
Switzer at once raised an alarm and  
brought B. Furter to the scene, he at  
once dived in and found deceased head  
downwards in the water and brought him  
out. Artificial respiration was resorted to  
and medical aid summoned but all to no  
purpose. The police and coroner were  
notified, a jury empanelled and an inquest  
held, after hearing the evidence, brought  
in a verdict of "Accidentally drowned."

The remains were brought to Crossfield  
for burial. The funeral took place on  
Friday in the local cemetery amid scenes  
of sympathy and respect. "The service  
was conducted by the Rev. W. C. Marsh,  
assisted by the Rev. R. K. Swenerton  
in the Union Church, which was filled to  
capacity, by sorrowing and sympathizing  
friends. The floral tributes were many  
and showed the respect with which Jerry  
was held in the whole district. A beau-  
tiful floral tribute was sent by the mem-  
bers of the Rebekah Lodge, also one from  
a large number of Jerry's friends, a large  
number of whom signed their names on  
the appended card. Six of the deceased's  
friends acted as pall bearers.

Jerry came west with his parents about  
15 years ago, and assisted his parents  
on a farm west of Lethbridge. He was later  
sold and the parents returned to the States,  
leaving Jerry and Clarence here, whilst  
two other brothers are living Rupert in  
Portland, Oregon, and Edgar in Victoria,  
B.C. Jerry was born in Ohio, in the  
year 1881, and during his residence in  
this district has made a host of friends.  
The mother is at present in Zanesville,  
Ohio.

A strange coincidence is that the father  
was killed by his team of horses, being  
thrown and one of the horses struck him  
on the head, exactly two years ago to the  
day.

The floral tributes were as follows:—

With Deepest Sympathy.

Sleep on beloved, sleep and take thy rest.

Lay down thy head upon thy Saviour's

breast.

A loving and sorrowing Mother and

Brother.—Clarence.

From Ada, With Sympathy.

Asleep in Jesus, blessed sleep.

From which some ever wake to weep.

A calm and undisturbed repose,

Unbroken by the dread of woes.

Loving friend, With Sympathy.
